BOLSHEVIKI NEGOTIATES WITH GERMANY FOR PEACE

DESPERATE FIGHTING IN FRANCE

Sanguinary Struggle Is Raging About Fontaine Notre Dame.

German Reinforcements Push British Back from Village.

Battle Continues With Unabated Fury.

(By Associated Press Cable)

British Army Headquarters in France, November 27.—Desperate and sanguinary fighting has been raging about Fontaine Notre Dame since dawn today, when the British again attacked the village. Shortly after nine o'clock it appeared the assaulting infantry had stormed its way through the village in the face of tremendous machine gun fire. Five hundred German prisoners were taken in the early hours of the fighting. Late this afternoon the Germans hurried up two new divisions and threw them in for a counter attack along the Fontaine Bourlon Woods line. The fighting which followed in Fontaine was even more bitter than that which occurred in the first rush through the ruined hamlet. At latest reports superior numbers of the enemy infantry had pushed the British back through the village to the western outskirts, but the battle still continued with unabated fury.

Wilmington, O., November 28.—Alpha Roush, aged 55, drayman, ended his life here late yesterday by hanging himself to a rafter in his barn, during a fit of despondency. He had been dead several hours when his body was found by relatives. The deceased leaves a widow and two sons, Earl, of this city, and Gail, of Washington C. H.

BOYS OF NEW ARMY BEING TAUGHT TRENCH WARFARE

FORT SHERIDAN TRENCHES

One of the finest training camps in this country, according to French instructors here, is the one located at Fort Sheridan. The trench system used there is said to be the best organized and constructed of any in the United States. Members of the Officers' Reserve Corps supervised the construction of these trenches, and the men work, eat and sleep in them just as they expect to in the trenches in France.

GERMANY CONSENTS TO NEGOTIATE FOR PEACE WITH ALL BELLIGERENTS

(By Associated Press Dispatch)

Germany has consented to negotiate immediately for an armistice "on all the fronts of the belligerent countries," according to a Petrograd dispatch. The Entente governments and the United States, on the other hand, have shown no disposition to negotiate. The Bolshevik armistice was submitted to the embassies in Petrograd, but so far as has appeared they have not been replied to by the various governments.

Whatever the ultimate results of the negotiations, it is clear that at present the Russian negotiations represent only a factor.

Representatives of the Allied powers are in Paris for a conference upon which the future course of the war activities will depend. The French leaders have been joined by representatives of the United States, Great Britain and Italy.

A basis for joint action against the Central Powers will be determined and the future policy toward Russia may be decided upon.

Indications are the opposition to the Bolshevik is rapidly gaining strength. A conference of anti-Bolshevik leaders at Russian army headquarters for the purpose of forming a coalition government is reported. Meanwhile General Kaledines of the Don Cossacks, who is reported to control the grain producing territory, is growing in power.

Many army officers opposed to the Bolshevik regime have joined his forces. Government employees in Petrograd have refused to recognize the Bolshevik and have quit office.

As the British thrust toward Cambrai from the west they encounter more resistance. Heavy fighting is in progress around Fontaine Notre Dame, less than three miles from Cambrai, and near Bourlon.

General Byng's men, however, are making progress against the strongly reinforced enemy.

Dismayed apparently by the losses sustained in their fruitless efforts of the past two weeks to break the Italian lines between Brenta and the Piave valleys, the Austro-Germans continue to hurl fresh troops against the defenders of the passes to the Venetian plains.

Great activity of the Austro-Germans is reported in today's dispatches from Rome, which are declared to forecast a greater offensive in the northern sectors for a mighty effort to break through. On the Asiago front and on the middle Piave Italian batteries have carried out a concentration of fire on the enemy's massed troops.

A report from London today says the British cavalry is now three and one-half miles west of Jerusalem and closing in on the Turks.

The official organ of the Vatican denies that the Pope has directed or prepared a new peace appeal. It is reported.

Fear of a German threat that she would seize a base in Denmark, should Norway permit the Allies to obtain a base, is reported to be behind the conference of the three Scandinavian kings in Christiania. It is disclosed that hostility to Germany in Norway has reached such a stage that Germany believed Norway was about to aid the Allies, and to counteract such a possibility informed Denmark that if such a step was taken Germany would occupy Denmark as a counter measure. This is said to have brought about the present meeting.

FINE!

By Associated Press Dispatch.

Washington, November 28.—The government orders giving priority to shipments of bituminous coal to railroads taking it to lake ports for transshipment by water to the northwest was revoked today effective November 30th. This will make available railroad cars for shipment to other parts of the country.

TELEGRAPHERS MAKE DEMAND

By Associated Press Dispatch.

Washington, November 28.—Mediation of the strike demands of the B. & O. railroad telegraphers revealed today that railroad telegraphers throughout the United States have asked increased wages and an eight hour day and pay for Sunday work. The demands have been made by the men of individual systems and not by the Order of Railroad Telegraphers as a whole. About 2300 men are involved in the demand, made on the B. & O.

Russian General Passes Through German Lines.

To Arrange for a Conference on Proposals for Peace.

Germany Has Officially Consented to an Armistice on All Fronts.

December 2nd Chosen as Day of Conference and Negotiation.

(Associated Press Cable)

Petrograd, November 28.—Representatives sent by Ensign Krylenko, the Bolshevik commander-in-chief of the Russian armies have been received in the German lines and informed by the German commanders that the Germans have officially consented to immediate negotiations for an armistice on all the fronts of the belligerents.

The Germans have selected December 2nd for a conference for negotiations for an armistice.

POISON SPREADS

By Associated Press Dispatch.

Washington, November 28.—German propaganda in Russia is increasing in intensity, according to information received at the Embassy here from the Russian ambassadors at Paris and Rome.

Every effort is being made to misrepresent the attitude of the Entente powers and that of the United States and misleading announcements of policies are being spread in Russia and other countries.

In some circles it is believed the representatives of the allied powers now in Paris already may have served notice on the Trotsky-Lenine faction that any intercourse with Germany would be looked upon as severing relations.

It was not apparent here that any such message had been sent.

ARMY SUPPORT

(By Associated Press Cable)

Petrograd, November 28.—The Russian Fifth Army announced today that it proposes choosing parliamentarians to be sent to Germany.

This is the second instance of an announcement of definite support of the Bolshevik program by the military, the first being the second army whose action was previously reported.

PASS THE LINES

The Krylenko emissaries crossed the German lines at four o'clock yesterday afternoon and were received by the German commander.

A reply was promised at eight o'clock. At the appointed time the Germans gave official consent to conducting negotiations and the conference was set for December 2nd.

It is asserted here the persons conducting the negotiations are official representatives of the Bolsheviks.

MEANS' DEFENSE SHOWN IN QUERY

By Associated Press Dispatch.

Concord, N. C., November 28.—One line of the defense of Gaston B. Means, a trial for the murder of Mrs. Maude A. King, was indicated today in the cross examination of the state's first witness, M. F. Richie. The questions asked by the Means attorneys indicated they expected to show that the wealthy widow, whose sensational death aroused three states was killed by the accidental discharge of a pistol dropped on the ground.

CAN'T SEND AN ARMY SAYS JAP MINISTER

LIEUT.-GEN. OSHIMA

Lieutenant-General Oshima, Japanese Minister of War, asserts that, owing to lack of tonnage and the tremendous cost, it would be impossible to send a Japanese army to Europe, according to dispatches from the Japanese capital. Many French military critics, however, declare that a Japanese army of 500,000 men could easily be transported to and be maintained in the Balkans, in Mesopotamia or Palestine.

YOUNG GIRL CONFESSES TO ROBBERY PLOT

With No Trace of Remorse 20-year-old Girl Tells of Her Plot With Brewery Robbers.

By Associated Press Dispatch.

Toledo, O., November 28.—Without a trace of remorse 20-year-old Wanda Urbatis, a pretty telephone girl in the office of the Huebner Brewery today confessed her part in the robbery yesterday of \$37,000 from one of the bookkeepers, according to the police. The girl is alleged to have informed the robbers when the bookkeeper left with the money on the way to the bank. The police say she confessed she knew of the crime and said that under pretext of going to a drug store she passed the hands on the street and urged them to postpone the robbery because the bookkeeper would not have so much money with him as they expected him to have.

PEACE RIOTS AT BUDAPEST

(By Associated Press Cable)

Amsterdam, November 28.—A socialist demonstration at Budapest on Sunday in favor of an armistice and peace is reported by the Volksische Zeitung of Berlin.

Declarations were made that the democracy must employ all means to end the war and that it is impossible to bring peace by force of arms. These statements led to a demonstration against the war.

MAY CLASS BOLSHEVIKI AS ENEMY

America and the Entente Allies Will Determine at Paris Conference.

Evidence of German Sponsorship for Present Ruin in Russia Accumulating.

By Associated Press Dispatch.

Washington, November 28.—The American government and the Entente Allies as well will determine whether the Bolsheviks are actually to be classed as enemies and active allies of Germany as soon as official advice can be gathered on the conference between Bolshevik leaders and German officers.

Yesterday's dispatches saying that German staff officers were in Petrograd engaged as advisers to Lenin, followed by today's news that leaders had crossed into the German lines for conferences with the German military authorities were not wholly unexpected to officials here, but they hope that the Bolsheviks may in the end help carry on the war against German militarism.

The development more than confirms the contention that the Bolsheviks was fostered by German propaganda seeking to break Russia from her allies.

One of the first acts of the allied governments when they learn officially that the Bolsheviks are actually working with the Germans undoubtedly will be to withdraw their emissaries in Petrograd. This of course will include American Ambassador Francis.

HORN OF PLENTY RECORD FULLNESS

American Farmers, Responding to Call, Produce \$21,000,000,000 of Crops.

By Associated Press Dispatch.

Washington, November 28.—Thanksgiving day finds America's horn of plenty with new high records of fullness.

Responding faithfully to President Wilson's appeal and the need of a war-torn world, American farmers produced a grand total of \$21,000,000,000 worth of farm produce, equalling in value the nation's total expenditures in one year of war.

That great total being the volume of all crops, animals and animal products was \$6,500,000,000 greater than last year, and more than the combined value of any two previous years.

There were record crops of corn, oats, and sweet potatoes, tobacco and beans.

COMMANDEERING CANS

By Associated Press Dispatch.

Washington, November 28.—Protest by canners against government commandeering of tin revealed today that the navy department has commandeered all tin in New York warehouses.

JEFFERSONVILLE MAN IS IN THE TOILS

James Glover, colored, of Jeffersonville, was brought to the county jail by D. T. & I. detectives Wednesday morning, to answer to a charge of coal stealing from the company's cars in Jeffersonville. The charge against him was filed in the probate court.

It is claimed by the detectives that a large amount of coal has been stolen in Jeffersonville, and either stored in large quantities or sold to other persons, similar to the crimes committed in this city during the past several weeks.

Where there has been absolute need of coal, and persons have taken the coal, had it weighed and made arrangements for paying the railroad for same, there has been no complaint on the part of the officials. It is understood, but where there is evidence of an attempt to deliberately steal the coal, then the officials deal with the persons as common thieves.

WORK ON STREET RESUMED TODAY

Work on Market street was resumed Wednesday morning, and the concrete base completed in short order.

Only a small section of the base had remained to be completed on W. Market street, and this was speedily finished, after which the mixer was moved to North Main street, where the work of constructing the base was taken up.

When the work of constructing the base on North Main street is finished, work on West East street, south of the Dahl-Campbell plant, will be taken up.

Next week, if weather permits, work on the asphalt will begin.

Acting under the instructions of Federal Food Administrator, Fred C. Croxton, the local Food Commission made inquiry of restaurants and ho-

tels in this city Wednesday to ascertain to what extent they are following the government regulations for meatless and wheatless days.

In most instances the local dining places were complying with the instructions of the government, and announced their intention to do so regularly.

PAIR OF DRUNKS

Clarence Seymour, old offender, returning from Chillicothe with a little too much red-eye in his system, was picked up by the police Tuesday, and after being allowed to sober up was handed the customary \$5 and costs, which he paid.

Webb Davis, said to hail from Highland in the county of the same name, was released Wednesday morning after being held for two or three days on a charge of being drunk.

His household goods were transferred by a moving van the same day.

Dr. Holdren has been engaged in the practice of medicine in Bloomingburg and country around for 28 years. He is a most trustworthy physician and a high class gentleman. He has been a useful citizen in the community in every way, and a loyal supporter of the church and school. At one time he was the choice of the people of this district for State Senator. After serving the term to his credit, he took up the practice of his profession and never again asked for political favors.

He will continue the practice of medicine in Kingston. All his friends wish for him good success in his new field.—Contributed.

A Thanksgiving Note

By S. H. MacKean,
(Written for the International News Service.)

I'M THANKFUL to be here an' fightin'
In the mud an' the rain an' the cold,
With a wind that is bitter an' bitin'
In a trench we've got orders to hold,
'Though we suffer the tortures of Hades
With a front that's both cheerful an' bold.

To-night we'll get turkey an' dressin'
Well mixed with the shot an' the shell,
To bring thoughts of the States, an' a blessin',
An' relief from the strain for a spell;
But we're here, an' we'll battle the Kaiser
'Til ice skates are sellin' in Hell!

So tell all the folks that are waitin'
That we're cheerful an' well to a man;
And, while sure, we are not under ratin'
The job that we've taken in hand;
But we're here, an' we'll battle the Kaiser
'Til he yields to democracy's stand!

FIRST TO LEAVE FOR "OVER THERE"

Final preparations have been made by the men of the 408th motor supply train for their departure from Camp Sherman for France, and every man who is a member of the truck train company has been sending home all surplus paraphernalia such as surplus sweaters, socks, toilet articles, and

little articles which he could use in camp but which is excess baggage when the time comes to move.

Some of the men shed tears as they made final preparations to go—but not because they did not want to go—they are eager for the work.

The 308th ammunition train will also take its departure for France in the very near future.

Thanksgiving

WE ARE once more called upon by our President to observe our great National holiday. And all of us should heed this summons. This year, in particular, it is our duty to appreciate the many blessings bestowed upon us and to give thanks for them.

It may seem that in the midst of this great war that our causes for thanksgiving are few. But think of the reasons YOU have for giving thanks—and think of our reasons as a Nation. Our President's proclamation clearly shows that, even in these trying times, we have a great many things to give thanks for. We should all of us observe this day and celebrate it in accordance with time-honored custom.

This store will be closed all day on Thanksgiving. We are truly thankful and intend to observe the day. Please accept our sincere wishes for a happy Thanksgiving Day.

One of the most delightful entertainments ever given at The Woodmen's Hall at Bloomingburg was by the Seniors and Sophomores of Bloomingburg High School on last Friday evening in honor of the Seniors, Freshmen and faculty. The guests arrived at an early hour and the first part of the night was spent in playing games and music. The first Central Birthday party of this school year was given Tuesday afternoon at the Central School building by the four grades of the first floor, the beginners, first, second and third with Misses Anna Bell, Emily Palmer, Lillian Davis and Lillian Taylor teachers.

In honor of the fifty "birthdays" whose birthdays were either in months of September, October or November, a huge white birthday cake with yellow trimmings was

placed in the center of the table, which was beautifully decorated with fifty crystal candle sticks holding yellow candles.

The officiating ministers, Rev. T. W. Locke, of Columbus, and Rev. Arthur P. Cherrington, took their places behind the standards at the appointed hour, awaiting the coming of the bride and bridegroom and their attendants, Miss Jean Howat and Mr. George Gessy, of Pittsburg, an O. W. U. fraternity brother of Mr. Graham.

A hundred and fifty guests were assembled.

Just before the ceremony Miss Ada Woodward sang exquisitely "Because"—Guy D' Harelot and "Oh Promise Me"—Reginald De Kove—as the last clear notes died away Miss Lillian Davis, who had accompanied the singer perfectly, sounded the summoning chord of the Lohengrin march. Softly and artistically Miss Davis played "To a Wild Rose," while the vows were pledged, and following the nuptial prayer, struck the note of the Mendelssohn march.

The double ring ceremony as performed by Rev. Locke, assisted by Rev. Cherrington, was one of deep impressiveness.

The bride, a beautiful girl of very unusual blonde type, wore a modish suit of taupe wool, with seal collar, small velvet hat, gloves and shoes, and white georgette blouse. She carried an armful of superb white chrysanthemums.

The charming bridesmaid was wearing a handsome suit of Hunter's green broadcloth, with becoming velvet hat and her arms were filled with rose chrysanthemums.

The young couple, with the maid and best man, held an informal reception before leaving the church and responded cordially to the shower of good wishes.

Mr. and Mrs. Graham left at once for a short wedding trip. Their future home will be made on the Graham farm, below Clarksburg, of which the bridegroom assumes the management early in the year. Until then the bride expects to remain with her mother in this city and retain the position of assistant city librarian, which she has efficiently filled for some time. She is an exceptionally charming young girl, who entering upon literary work soon after the completion of her High School course, has been closely identified with both educational and social circles, and a host of friends are glad to have her in her home town a little longer.

The bridegroom is the son of a well known merchant of Clarksburg; an O. W. U. graduate and a popular fellow.

placed in the center of the table, which was beautifully decorated with fifty crystal candle sticks holding yellow candles.

Following this all the children sang beautifully a Thanksgiving song, which was very appropriate at this time, and recited the national poems, "Your Flag and My Flag." During this two cunning children a little girl dressed as the "Goddess of Liberty" and a little boy as "Uncle Sam" held a large flag across the hall. After the saluting of the flag coming as a surprise to the children, the four grades upstairs sang recurrently, "Keep the Home Fires Burning" and "Red, White and Blue," which brought forth enthusiastic applause.

As a fitting close to the afternoon's pleasure, each child was served with an "All-day-sucker."

An elaborate dinner of beautiful appointments was given Tuesday evening by Mrs. L. L. Brock in honor of the birthday anniversary of her husband.

A large birthday cake, ablaze with pink candles, and encircled with smilax, formed an artistic centerpiece and at either end of the table were crystal bud vases holding, a single pink rose and swansonia.

Poetry For Today

THANKSGIVING.

For what shall we give thanks, Lord
God of Hosts? For this—for this:
That we were born in this wonder
time
That sees the death throes of world
slavery,
And that we stand amid the banners
of hosts
And bear the unshaken sword of
Liberty—
Thank God that we were sired AMER-
ICANS,
Shrived of ignoble taint of coward-
ice,
And that our blood, through careful
years, ne'er ran
Thin with the craven fear of sacri-
fice.
For what shall we give thanks, Lord
God of Hosts? For this—for this:
That we are brave with truth, not bar-
barous;
That in our hearts and souls there
doth abide
The vision of the Nazarene.
His thorn-crowned head and spear-
pierced side—
Thank God that on the bloodiest bat-
tle field,
Where Death has harvested and
Glory gleams,
Holding us fast to ancient faiths and
creeds,
The Cross of Calvary forever
leans!
For what shall we give thanks? Lord
God of Hosts? For this—for this:

WE have been given the opportunity to serve mankind as we once served ourselves in the great day of our Declaration of Independence, by taking up arms against a tyranny that threatened to master and debase men everywhere, and joining with other free peoples in demanding for all the nations of the world what we then demanded and obtained for ourselves.
WOODROW WILSON
Thanksgiving, 1917.

We Give Thanks

The coming of Thanksgiving day finds us a great united nation, militant for the right of humanity to live in freedom, prosperous, and happy that it is our privilege to throw the great power of the nation into the struggle, which humanity is waging.

This year at the Thanksgiving table in thousands and thousands of American homes, although there will be vacant chairs, there can be no censure of ourselves for fear any part of our duty has been avoided. We are thankful that the good men, and the good women, the boys and the girls of America understand and appreciate, to the full, the task required of them and, understanding, have joined, wholeheartedly, the great forward movement of civilization.

We are thankful, this year, for the most abundant crops in the history of the nation, thankful that our granaries and store houses are filled when the call of the world comes to us across the sea, thankful that men and women are learning to economize and to use of their abundance only that which is required, thankful that the spirit of unselfish giving has been realized and is being practiced.

The American people are at war and the burdens of war are tremendous.

Many American men and women will be sad this Thanksgiving day. Sad that American boys must suffer and die on the battlefield, but thankful that America is "privileged" to make these sacrifices that the priceless blessing which our fathers fought for and secured, may be made safe not only for ourselves, but for all the world for all time to come.

We are thankful that the last stronghold of kings and tyrants is tottering to its fall and that the fortunes of war are making clearer every day the inevitable end, the triumph of right and the end of rule by might.

Include All of Them

As the leaders in the National Congress gather in Washington, preliminary to the convening, next Monday, of the regular session, their expression of opinions as to what should and what should not be done by the legislative body, is the mirror which, with correctness, reflects the views of the people.

The fact that every one of the representatives, who have thus far expressed an opinion on any subject, expects, and is advocating, tremendous appropriations for war purposes, is an encouraging and indisputable evidence that the people of the nation are, wholeheartedly, into the war with the determination to see it through and to see that this great nation does its part in making the world safe for democracy.

The next important public sentiment reflected in the talk of the leaders is the demand for a break with Germany's Allies, Austria, Turkey and Bulgaria.

Senator Stone, whose attitude of opposition to the war has been so at variance with the will of the people, has finally swung around and is earnestly urging a break with the Allies of Germany. The Missouri senator points out, correctly too, that as a matter of fact we are at war now with Austria, Turkey and Bulgaria and we might as well have a formal congressional declaration of a well recognized fact.

It is to be regretted that Senator Stone couldn't see the same condition last March when the declaration of an existing condition with regard to Germany was asked.

However, he is right now. There has never, so far as the people generally could see, been any reason for keeping up formal governmental courtesies with Germany's Allies. The fact that embassies have been maintained at Washington by Germany's tool and vassal governments may explain many leaks of official information.

It's time to be rid of the whole vicious and unprincipled outfit.

BRITAIN'S LEADING GEOLOGIST DIES

(By Associated Press Cable)
London, November, 27.—The death is announced here of Professor Edward Hull, the foremost geologist in the British Isles. He was born in 1829 in Ireland. In 1883 he was the leader of a scientific expedition to Arabia and Palestine, and his chief assistant and geologist was Lord Kitchener, then a captain. Professor Hull has recently devoted his time to the work of the War Coal Commission.
His last scientific work was in connection with the bed of the Atlantic, by which he discovered that the "continental platform" on which Western Europe and the British Isles are planted is eroded by old river valleys continuous with those of the Loire, Douro and Tagus, and descending to a depth of several thousand feet below the present surface.

FALKLAND ISLANDS ARE ISOLATED

(Associated Press Correspondence)
Port Stanley, Falkland Islands, November 26.—The war has completely isolated the Falkland Islands from the rest of the world as far as commercial intercourse is concerned, in spite of the fact that the islands are the naval base of the British fleet for the South Atlantic and South Pacific.
Since March 19 of this year not a single ship has stopped at the Falklands on its journey to England and correspondence for Buenos Aires and Montevideo has been sent by way of Punta Arenas, while passengers for Buenos Aires or Montevideo have had to go around to Valparaiso on the Pacific liners and then across the Andes by train to get to their destinations.
The British Government has bought up all the wool of the Falklands, giving the owners 55 per cent above pre-war prices. Some of this wool sold as high as two shillings, sixpence a pound.
Flour has risen to fifty shillings a sack and bread is selling at a shilling a loaf, weighing less than four pounds. Sugar is selling at eight cents a pound.
The islands have become so over-run with rats that the Government has offered an English penny a head for all those killed.

THE GERMANS MAY OCCUPY DENMARK

(By American Press)
Copenhagen, Nov. 28.—Behind the meeting of the Scandinavian monarchs and ministers at Christiania this week lies the fear of Norway's entry into the war and of the German menace that, in this case, it should feel called upon to occupy Denmark as a counter measure.
It is learned from a responsible source that the conference, which was arranged in consequence of an intimation from Germany that the growth of anti-German sentiment in Norway, particularly after the sinking of the convoy in the North sea by German cruisers, is being followed with concern by Germany and that it is feared that Norway might be impelled, either by excited public opinion or pressure from the allied side, to enter the struggle at least to the point of granting a naval base to England and the United States, in which event Germany would feel called upon to seize a corresponding base in Denmark.

GERMAN WIRELESS PLANT IS CLOSED

(Associated Press Correspondence)
Buenos Aires, November 22.—The arrest of Count Luxburg, formerly German Minister to the Argentine republic prevented the operation of a gigantic wireless station which had been erected by a German company on a bluff near Buenos Aires. When Luxburg received his passports the company was installing an apparatus which was expected to put this city into direct radiographic communication with the German station at Nauern, Germany.
The next day the Minister of Marine closed the wireless station and ordered an officer of the navy to superintend the dismantling of the apparatus.
Although the official excuse given for the closing of the station was that its experiments had not been successful, officers of the Ministry of Marine have stated that the real reason was to prevent secret communication with Germany during the crisis which followed the expulsion of Luxburg.

TROOPS IN CHARGE

(By American Press)
Washington, Nov. 28.—All harbors on the Atlantic coast capable of docking a 500-ton ship soon will have their water fronts put under martial law. The department of justice is receiving detailed information regarding docks and piers from all Atlantic seaport towns. Drafting of regulations will be undertaken at once and regular troops soon will be on hand to challenge all those seeking to approach water fronts where docks or piers are located. After Atlantic water fronts have been put under martial law, the plan will be extended to gulf ports and then to the Pacific coast and the Great Lakes.

LOCAL WOMEN HEAR APPEAL TO SPEED UP THE WAR WORK

Miss A. M. Reeve, American Red Cross Supervisor for Southern Ohio, Delivers Stirring Address to Washington Women.

Mildly Chided for Their Failure to Meet Proportion of the War Work Allotted to This Community.

"I am aghast to go into a town of 10,000 inhabitants and find so small a number of women sewing—to find that so few are vitally interested in working for the greatest war of all ages. I live in a rural village of 3,000, but every afternoon finds 50 to 55 women busy in the R. C. workshop and a large force at work each night, while every month we send our shipment to Europe. That's the kind of work I want you to do in Washington and Fayette county." Such was the opening gun fired by Miss A. M. Reeve, American Red Cross Supervisor of Southern Ohio, in the Lake division, at the Red Cross headquarters Tuesday afternoon.

As Miss Reeve said, she had not been invited to come to Washington C. H., but since she was here of her own free will she found many things to say and she said them, in a charming, yet forceful way, with all the courage of her convictions strengthened through her intimate association with the work.

Miss Reeve's informal talk, with war relief workers, could not fail to stimulate activity and gave much enlightening information. Before taking up subjects for discussion she impressed the solemn duty which rested upon the American Red Cross. To it the Government, already weighted down with the responsibility of putting millions of men equipped for service into the field, turned, and looks to the A. R. C. to provide base hospitals, doctors, surgeons, nurses, surgical supplies, hospital garments, drugs, anaesthetics, ambulances and personnel. If the Red Cross doesn't do it it won't be done. The first line of defense is made miles from home; the second line by the women of the country at home.

Red Cross the Official Medium.
The Supervisor urged that all women in whichever branch of war relief work they had earlier been engaged, and the splendid work of these branches will always be gratefully recognized by the Government, realize the importance of the American Red Cross as the official medium for all war relief work.

The N. W. L., the N. L. for Surgical Dressings, and other strong organizations when the need had been put before them and they had been asked to join forces, had answered "any way to win this war," and their splendid co-operation with the Red Cross was greatly increasing the work accomplished. In union there is strength and the big aim of the A. R. C. is to unite every worker in a perfected organization which will be capable of meeting the strenuous demands of the war.

"I hear some one say 'the war's all-most over—we've got them on the run.' We have driven them back six miles and then there's 150 miles through Belgium and 600 miles to Berlin. It's going to be a long and a strong pull, but we'll pull it together. And we must do it together. The men who go to fight don't pick their friends, their officers or their mess men, they go to fight. So the women must follow the plan proved best.

"You must all work together on the same specifications."
Miss Reeve laid stress on the fact that any finished article made from funds furnished by the Red Cross must be turned into the Red Cross for distribution. Every penny collected for and disbursed from the Red Cross must be accounted for in the reports of Red Cross work.

Our Red Cross.
"I like to hear people say 'Our Red Cross,'" said Miss Reeve.
"You say 'Our Boys,' and it is just as important to say 'Our Red Cross.' Before spring we don't know how many wounded will lie in Red Cross hospitals. England had 1,000,000 last spring, and fell woefully short of surgical dressings. I don't want to take the joy out of life, but I want you to feel the necessity of your organization and your share of work to be done."

"There are 5,000 hospitals in France; 3,000 in Paris alone. Every hotel in Paris has been turned into a hospital and filled with wounded men."
"Major Grayson Murphy says that nearly twice the surgical dressings made are needed. The women of England work all night. Ambulance workers work 48 to 62 hours at a time, in the darkness, with shells bursting overhead."

Give Your Best Work.
"You send the best boys in the world, why not have the best machines and the best methods. You say, 'We can't do a thing; the R. C. never knows what it wants.' It is true that changes are often found necessary, but there are reasons for these changes and often heart-breaking reasons. It has been found necessary to increase the size of surgical dressings, because wounds from shell and shrapnel sometimes require dressings a yard wide. There are new sets of patterns for pajamas because French convalescent soldiers wear their suits on the streets and if they want those changes shouldn't we make them that way?"

Miss Reeve advised that in order to obtain speed and uniform standards everyone in the unit should work upon the same thing needed at a certain time and in a certain way and shift on at once to headquarters.

Fayette County Not Up With Quota.
With regret the Supervisor said that the only thing in which Fayette county had attained her quota was the Liberty Bond loans. Mr. Davidson, National Chairman, said: "I want everyone working absolutely in unison for the Army Y. M. C. A., the Liberty Loan and the American Red Cross. Fayette, with a population of 20,000 to 25,000 ought to have a number of branches formed, working in co-operation with the headquarters in the county seat. It is an absolute necessity. We'd like to feel that when the next drive comes Fayette will be up with her share."

Sensational Stories Denied.
"Organized propaganda," was Miss Reeve's name for stories told that were injurious to the Red Cross.

"Every dollar given to the A. R. C. returns \$1.02. The operating cost one-tenth of one per cent for everything. I could give you the names of 150 prominent men of the United States who give all their time to Red Cross work at home or abroad without a cent in salary. The story of five dollars a plate Red Cross banquets, the sweater story and others are absolutely false and intended to undermine the morale of American men."

Civilian Relief.
The importance of Civilian Relief work and its branches as in charge of the Red Cross was explained and it was urged that the local chapter send some one to take training for this work.

Methods of Raising Money.
Questions were asked as to the best ways of raising money. The Supervisor said, "It was generally found necessary to raise a good part of the money outside of donations. In her own town suppers, ball games, entertainments, dances, card parties and amateur theatricals had all proved successful ways of bringing in money."

"The last thing a club should do this year is to eat," said Miss Reeve, speaking of the numerous clubs which were donating the price of refreshments. Miss Reeve did not recognize any handicaps in the fact that there was often conflict of ideas in regard to the character of entertainments given. She said:

"It is perfectly all right for church people to say we do not want to give dances. Let them give the entertainment of which they approve to raise their share, but that need not deter the clubs who give dances for themselves, giving the proceeds instead to the Red Cross or people who entertain with cards raising their money through a card party. Let each person do as he believes best, but in such a way as to reach as many circles as possible and make entertainments popular. So that there will be the necessary means for this government work."

Entertainments are not given by the official sanction of the Red Cross but the proceeds may be turned into the treasury. There can be no division of profits in connection with entertainments for this organization.

Share Responsibility.
In closing Miss Reeve urged the necessity of sharing responsibility.

"It is a mistake one bunch of people doing too much. This lessens the degree of efficiency."
"The executive committee should comprise the officers with the chairman of the Civilian Relief, Hospital Supplies, Finance, Membership and Purchasing committees."

Miss Reeve said she was so happy to see the nice, tight knitting done by the local chapter. The hand made socks outwear 3 to 1 the machine made, and are more comfortable. She refuted the statement that work was frequently rejected.

"In all the chapters I have visited I have never yet rejected a single thing for shipment, with the exception of some dirty surgical dressings. One chapter had made hospital shirts all wrong, and was asked to correct them. You may be sure if an article is useful it is welcomed with open arms."

Local Chapter Will Specialize.
Following the request of Miss Reeve the local chapter has decided to specialize in bed shirts, and has pledged itself to make 300 a month. They can easily be done as it is to be the work of the whole county.

These bed shirts can be simply packed in a regular box and sent straight to France.

Later Miss Reeve advised the starting of a surgical dressing class.

TAKEN TO K. OF P. HOME FOR INFIRM

George Smith, better known as "Cheap John" who for a great many years has made the rounds of fairs and stopped on street corners to sell whips and other small articles at ridiculous prices, was taken to the Knights of Pythias Home for the aged and infirm, at Springfield, Ohio, on Tuesday. Mrs. Smith accompanied him.

Smith was a member of Confidence Lodge, Knights of Pythias, and sometime ago became totally blind.

Artis is the second resident of Jeffersonville "pinched" in the little cleanup of alleged coal thieves in that town.

WASHINGTON C. H. MAN'S EXPERIENCE

Can you doubt the evidence of this Washington C. H. citizen?

You can verify Washington C. H. endorsement. Read this:

P. Walters, 311 Clinton Ave. says: "I used to have such a lot of trouble with my kidneys and back, I couldn't keep on my feet for an hour at a time. My back would throb as soon as I did much walking and I was forced to sit down until I got rested. This trouble stayed with me for a long time. I finally heard about Doan's Kidney Pills and bought a box. They helped me in a few days and my back no longer bothered me even when I was on my feet a long time. I felt much better in every way. It has been a long time now, since I have had any of that trouble, and I credit Doan's Kidney Pills with curing me."

THE DEEMSTER

Starring Derwent Hall Caine

What The Critics Say Of 'The Deemster'

Joseph L. Kelley, in Motion Picture News:

Its action is strong but simple—simple because the simple has been made impressive without the "blare of trumpets." Its continuity reaches the nth power of perfection. Dull moments are conspicuous because of their absence.

New York Review:

The story is one of the most fascinating and dramatic ever conceived.

Variety:

Very effectively visualized in "atmosphere." Certain to attract interest no matter in what part of the world it is shown.

Evening World:

One of the most thrilling spectacles shown in motion pictures.

Billboard:

Without a flaw; it grips and thrills; it pleases and satisfies.

New York Dramatic News:

Held audience completely under its spell.

Starting Thanksgiving

Nov. 29th, Nov. 30th, Dec. 1st

Story Unapproachable
Production Unequalled
Appeal Unbounded

A beautiful production created by great artists and filled with refinement you so rarely see in motion pictures.

Hall Caine's tremendous piece of fiction is translated into a web of actual happenings, and his characters made to live and breathe with perfect realism in this greatest of all productions.

"THE DEEMSTER" freshens public interest and sharpens the public appetite because it has, first of all, a "grip" in its theme; a pictorial dramatic power, and a wonderful star.

It has within it a genius of a brilliant director and one of the greatest stories of modern literature.

Those are reasons enough to insure the popularity of the picture to any one.

A CORRECTION

The article entitled "An Inspiration" was not meant for publication but for a book now being gotten out by Miss Duffee, by mistake it was handed to this office instead of to her publisher.

The book will be out next week and will contain over one hundred original poems. The last of which is the "Flower of America," being the story of a young soldier called to the front, and should be of interest to every one and especially to those that have some dear one that has been called.

FLYING FORCES HIGHLY PRAISED

(Associated Press Correspondence) London, November, 28.—"The Chivalry of the army" was the title bestowed upon the British air forces, by Premier Lloyd George in a tribute he paid to them in a recent speech in the House of Commons.

The Premier was moving a vote of thanks to the British armies and navy. Of the aviation service he said:

"The heavens are their battlefields, they are the cavalry of the clouds. High above the squalor and the mud, so high in the firmament that they are not visible from earth, they fight out

the eternal issue of right and wrong. Their struggles there by day and night are like a Miltonic conflict between the winged host of light and darkness."

"They fight the foe high up and they fight him lowdown, they skim like swallows along the ground, attacking armed men in their trenches. They scatter infantry on the march to destroy convoys. Every flight is a romance, every record is an epic. They are the knights of the war, without fear and without reproach.

They recall the old legend of chivalry, not merely by the power of their individual exploits, but by the nobility of their spirit, and among the multitude of heroes we must continuously thank the chivalry of the army."

WHAT'S IN A NAME

Sir William Ewart Gladstone, English statesman, scholar and premier, once called upon Hall Caine, the celebrated novelist, at his home on the Isle of Man and during the course of his stay remarked to young Caine that he was starting in life with a great handicap and incidentally expressed the hope that the young man would be fortunate enough to overcome the handicap of being the son of a famous father.

Young Caine, being made of the right material, then and there determined to win his own way in the world without letting the public know he was the son of Hall Caine, the distinguished author, and so it was that he went to London and entered professional life (the stage) as "Mr. Derwent." His talent was readily apparent to critics, audiences and theatrical managers, yet he would not disclose his real identity until he had registered an unqualified success in his father's first great novel, "The Deemster," which ran in London several seasons as a regular dramatic attraction. Then it was that the world was as-

tonished to learn that "Mr. Derwent" was in reality Mr. Derwent Hall Caine. So it was that a bit of good advice offered at the right time by one of England's best loved great men to the son of the greatest living author of dramatic fiction, gave the young man a chance to make good before the world was aware that he was laboring under a great handicap—that of being the son of a famous father.

"The Deemster," as a massive photoplay with Derwent Hall Caine in the stellar role, will be presented at the Colonial theater on Thursday, Friday and Saturday.

AN OPEN LETTER TO THE PEOPLE:
The food situation is so serious that we feel it now necessary
to ask the citizens of Ohio to do certain definite things in order to
permit the Government to fulfill its obligations to its armies and to
its allies. Only by saving food in every home can this be accomplish-
ed.
Ohio households have enrolled by the hundreds of thousands,
pledging their support to food saving. Ohio has always responded
to every call of her country.
In the present food crisis our problem is to save wheat and meat,
to feed our soldiers and our allies abroad this winter.
We can do this by observing the following definite program:
1.—Make Tuesday a meatless day.
2.—Use less pork products at all times.
3.—Make every evening meal wheatless.
4.—Use less white flour at all times.
If every man, woman and child will do this, our soldiers, and the
soldiers and peoples of our allies will be fed. Please remember, that
it is the saving of EVERY INDIVIDUAL that counts. Those who will
not save food are guilty of aiding the enemy!
Yours very truly,
FRED C. CRONTON,
Federal Food Administrator for Ohio.

AMERICAN SHIP SUNK BY U-BOAT

(By American Press)
New York, Nov. 28.—A cablegram
received at London from Corunna,
Spain, announces the destruction of
the American steamer Actaeon by a
German submarine. The vessel was
torpedoed off the European coast.
Twenty-one survivors have arrived
at Port Camarinas, Spain. Three
boats with the remainder of the crew,
numbering 37, are missing. Fifty-
eight men, including 26 American
citizens and five naturalized Ameri-
cans, comprised the crew of the
Actaeon.
The London cablegram received
here made no mention of United
States naval gunners aboard, nor do
the names of any appear in the re-
cords of the United States shipping
commissioner here. It is assumed
there were some on board, inasmuch
as the vessel was controlled by the
United States shipping board.
Formerly the German steamship
Adamsturm, of 5,000 tons gross, the
Actaeon left New York early in Oc-
tober, carrying government supplies
for Bordeaux. It is believed she was
on the return voyage when sunk. She
was commanded by W. J. Johnson.
The vessel was built in Germany in
1909 and was seized by this govern-
ment after the war with Germany
began.
The American citizens on board in-
cluded G. A. Jensen, Fondale, Cal.,
and J. A. Adams, Hood, Cal., wireless
operators; Louis R. Carson, cadet en-
gineer, Los Angeles; H. Wotton, sea-
man, St. Paul; James R. Healey,

WOMAN AWARDED PILOTS LICENSE

(Associated Press Correspondence)
London, November 22.—Mrs. Mau-
rice Hewlett, wife of the novelist,
was the first woman to gain an air
pilot's license in England, and she has
now become the first woman head
of an airplane factory. The factory
employs women and girls almost ex-
clusively. It has just been complet-
ed, a huge group of low frame build-
ings covering what was a year ago a
wheat field. It is two miles from the
nearest town.
"Girls and women cannot fly dur-
ing the war," said Mrs. Hewlett in
opening the new factory, "because the
machines cannot be spared to train
them. But they can learn to make
airplanes, and they are doing so by
scores."
Mrs. Hewlett gained her pilot's cer-
tificate in 1911, and it was not only
the first granted to a woman, but its
number was only 122.

GERMANY HAS NO MEANS OF SENDING A NEW AMBASSADOR

(Associated Press Cable)
Buenos Aires, Argentina, Novem-
ber 28.—Germany has had no diplo-
matic representative in Argentina
since Count Luxburg received his
passports. The German Government
is without means of appointing a
minister.

The secretaries and attaches at the
German Legation in this city have no
diplomatic standing, being merely
clerks to the accredited minister or
charge d' affaires. When Count
Luxburg received his passports from
the Argentine Foreign Office, he
could not invest the secretary of the
legation with the rank and diploma-
tic character of a charge d' affaires,
as he had never been presented to
and recognized by the government in
a diplomatic capacity.

Moreover, if the German Govern-
ment should attempt to put the lega-
tion in charge of persons who are al-
ready in the field, it is not consid-
ered likely here that the Argentine
Government would accept either as
minister or charge d' affaires any of
those persons who have followed
Count Luxburg in the capacity of ac-
complices, or who have simply been
his instruments.

Therefore, any diplomatic rela-
tions between Germany and the Ar-
gentine Republic will have to be car-
ried on through the Argentine Minis-
ter at Berlin.

APPEARED WITH BIBLE IN COURT

When the case of Steven A. Hen-
drickson against David A. Hendrick-
son, involving an old will, came up in
the court of appeals, Tuesday, Albert
Garringer appeared with a Bible un-
der his arm, ready to refer to it if
called to the witness stand. But he
was not called to the stand.

When the same case came up in
the court of common pleas, a year or
so ago, Mr. Garringer appeared at that
time, and quoted freely from the Bible
while on the witness stand.

RESTS FINE AT NIGHT SINCE TANLAC CAME

This Woman Used to Tire Out
Easily But She Says It's Dif-
ferent Since Taking Tonic—
Little Girl Helped, Also.

"I used to tire out easily and had a
headache most of the time, but it's
different since I've been taking Tan-
lac," said Mrs. Mary Unkraut, 1508
St. Clair avenue, Covington, Ky.

"My appetite was very poor and the
food I did eat was not digested right.
I used to have a pain in my stomach
a great deal of the time also and my
limbs ached a lot.

"My husband, who is a painter,
heard somebody at the shop telling
how good Tanlac is and when he told
me about it I decided to try it. My
appetite is splendid now and I can eat
about anything I want without any
bad effects. I sleep soundly at night
now, too, and get good rest and the
tired out feeling I used to have is
gone. Those pains that bothered me
so much before have disappeared
also.

"My little girl took Tanlac too and
it has improved her health wonder-
fully.

"Tanlac has been a great help to my
family and I recommend it."
